

About Us:

Trail's End was opened by owners Annette and George Haygood in 2000.

We specialize in layups and retirement. All breeds, ages and genders of horses are welcome.

We are a family-owned and operated, full-service facility on a quiet 30 acres in the country.

"All horses are treated like family." -Annette and George

Easy living:

Each horse has an 11' by 12' stall 7 days a week, and all-day turnout in small groups (weather permitting.)

Pasture turnouts have grass and water in summer, and hay and warm water in winter. Paddock turnouts have hay and water year-round.

Our hay is grown on-site, and we maintain a trail around the field in the adjacent woods.

Horses have all-day turnout with friendly companions

Attentive Care:

All horses are monitored daily. Owners live on premises and have medical training.

Trusted vet, farrier, and dentist all live within 10 miles and are available on call.

We will meet the farrier, vet, and dentist for you

Hay is fed 3x a day, grain 2x a day. Water is checked 2x a day. We will also administer medications or supplements needed.

Facilities:

- Barn with 20 stalls
- 60' x 90' Indoor Arena
- Turnout Paddocks
- Pasture
- Indoor Wash Rack
- Automatic fly misting

More photos can be provided upon request; however, we are not too far to visit!
